RE: Site Inspection, John and Alden Roybance, Golden Eagle
Claims #1 and #2, DOE/023/003, Juab County

Division personnel Frank Filas, Frank Jensen, and Dave Wham attempted to inspect the above referenced site on March 11, 1987. The area in which the claims are located falls within the boundaries of the Mt. Nebo Wilderness area. The access to the site has been blocked approximately three-tenths of a mile within the Forest Service line and signed "No vehicular traffic beyond this point". While the actual site of the DOE was not located, it is safe to assume that the only activities on the site (if any) are assessment work of a minimal nature.
